# Our service philosophy has always been to offer green solutions

Knowing the reason you are looking to buy a tree is extremely important. Is it to shade, screen, add a focal point to the garden? Is it required on the north side of the house; the south side? West or East?

## Brachychiton populneus

### KURRAJONG

For feature foliage it is difficult to go past this variety. Beautiful green foliage and red stems, it is perfect as a single specimen or multiple planting if you have the space. An evergreen tree with a wide canopy once established, it grows 8-12m tall.

## Arbutus unedo

### IRISH STRAWBERRY TREE

A smaller tree for smaller spaces, without any compromise on attractiveness. This is a beautiful addition to any garden. An evergreen tree, growing 4-8m tall, it works wonderfully well layered in the garden as a backdrop to smaller shrubs and plants.

## Eucalyptus sideroxylon rosea

### RED-FLOWERING IRONBARK

For fascinating bark, this is a doozy. An iconic Australian look with crusty dark bark peeling away from a smooth trunk, this feature is best with space as it can grow between 12-20m tall. Best leave this selection for acreage parks and gardens

## Pyrus calleryana 'Cleveland Select'

### CLEVELAND SELECT ORNAMENTAL PEAR

Pyrus is always a popular selection and Cleveland Select is a great option for many landscaping uses. A deciduous tree growing 8-12m tall, it can be used as a striking feature tree or multiple planted as a group. Makes a fantastic creative screening option along a fenceline or driveway.

## Ginkgo biloba

### MAIDENHAIR TREE

The oldest tree recorded in the world, the Gingko has one of the best looking leaves and foliage of any tree going around! Deciduous and growing 12-20m tall, its beautiful open structure and soft foliage makes a commanding shade tree.

## Magnolia grandiflora 'Kay Parris'

### KAY PARRIS MAGNOLIA (EVERGREEN)

One of the smaller growing Magnolia grandiflora varieities growing between 4-8m tall, this beautiful tree has so much going for it - wide white open flowers and glossy green leaves with a wavy edge it is suitable as a feature and as a creative hedge.
