# Callistemon pallidus 'Silver Cloud' ™

This is an attractive native shrub with silver foliage and plum coloured new growth. The flowers are a creamy/yellow that are bourne from spring to summer. This native is great habitat for birds and insects.

A good selection for hedging as it can be clipped to size. An attractive addition to the small native garden.

A bird attracting small to medium shrub. Prefers a humus rich moist soil but can tolerate a broad range of conditions. Plant in a sunny or partly shaded position.
