Tree	 **Magnolia x soulangeana 'Black Tulip' ™** BLACK TULIP MAGNOLIA (DECIDUOUS)
Description	This hybrid deciduous magnolia features deep purple, goblet shaped flowers which provide a knock-out display in late winter and spring before any leaves appear, creating a great contrast against its dark branches. Foliage appears after flowering and is a matte green colour. This is a woody, deciduous, upright growing tree which flowers from quite a young age.
Foliage	Deciduous
Form	Oval
Mature Size	5 x 3m
Uses	Its beautiful flower will make it a favourite in the garden. It can be planted singularly or in a row both in parks and landscapes.
Position & Soil	This magnolia prefers a moist, deep soil in a full sun position for best growth and flowers. It can tolerate a wide range of soils. Although it is adaptable to most climates, it should be given protection from strong winds.
Features	Small Deciduous Oval Avenue Feature Flower Group Planting Informal Screening Specimen

Pot sizes in production	• 40cm/27L (0.9-1.2m) • 50cm/52L (1.2-1.6m) • 100L (2.5-3.0m)
