

Angophora costata

Smoothbarked Apple Myrtle, Rusty Gum

This tree is loved for its smooth bark, large and twisted limbs. It has a very large expanded trunk base and bears white flower clusters in Spring. An attractive tree especially when young foliage develops and is a deep red colour.

Uses

A great tree for sandy dry areas. Great for parks and often seen in forest plantings.

Preferred Position & Soil

Will tolerate most soils and conditions but especially likes sandy soils.
