

Betula pendula fastigiata

Upright Silver Birch

This tree has an unusual growth habit, the branches intertwine with each other and grow inwards thus producing an erect habit. The leaves have a serrated edge and change from green to yellow in autumn. This tree looks fantastic during its dormant period.

Uses

A fantastic specimen tree. Can also be used in parks and gardens and to line driveways.

Preferred Position & Soil

Grows well in full sun in most soil conditions.
