

Elaeocarpus reticulatus

Blueberry Ash

This Australian native has deep green foliage that is a reddy/pink when young. It produces white flowers during spring and summer followed by a blue fruit from which it gets its name.

Uses

This hardy tree can be used as a specimen tree, informal hedge and with the right amount of pruning can also be kept as a large shrub.

Preferred Position & Soil

This tree prefers a moist, well drained, fairly fertile soil in a sunny to semi shade position.
