

## Taxodium distichum

### Swamp Cypress

This is a deciduous conifer with soft, fine-textured, needle-like bright green foliage changing to orange in late autumn before falling.

#### Uses

Its fine feathery foliage makes this a beautiful specimen tree. As a young tree it is partly conical in shape, becoming more spread out when mature. The bright green foliage in spring and summer provide interesting contrast in the landscape.

#### Preferred Position & Soil

Is tolerant of most soil types although it prefers moist over dry.

<b>Mature Height:</b>	20m
<b>Mature Width:</b>	6m
<b>Form:</b>	Horizontal Branching
<b>Family:</b>	Cupressaceae
