Need advice on tree selection?

Looking for that trusty native tree? But which one? We stock a large range of Australian native trees including Angophora, Eucalyptus, Corymbia, Lophostemon, Syzygium & Waterhousea. Natives suit a range of applications in the urban environment...

Eucalyptus caesia 'Silver Princess'
SILVER PRINCESS

This tree has young silver foliage and large pink flowers borne in Spring. A beautiful tree with a pendulous habit. Makes a wonderful specimen tree. This is a popular line for us and our customers.

Acer palmatum 'Osakazuki'

A neatly rounded tree growing to approx 6 metres in height. Its green foliage turns a fiery crimson in autumn. A good selection for protected pockets in small gardens and landscapes where contrast colour is required.

Fraxinus griffithii
EVERGREEN ASH

This fast growing, drought tolerant, attractive tree has leaves that are green and shiny on the top and hairy silver coloured underneath. They are oval shaped with pointy tips. The flowers appear in panicles, are white and born in Spring. Can be used as a feature tree or in parks and gardens. Can also be used in street plantings.
Syzygium australe 'AATS' PBR Pinnacle™
A more narrow growing Syzygium ideal for hedges and screens in narrow places. With glossy deep green foliage, this variety could also be used as a feature, like Italian pencil pines, down a driveway or footpath. It is used widely as a hedging or as a screening plant.

Agonis flexuosa 'Burgundy'
BURGUNDY WILLOW MYRTLE
This tree bears white clusters of flowers which last for a long time. It has a beautiful weeping habit and spectacular dark burgundy coloured leaves. The leaves are aromatic when crushed. Makes a beautiful garden specimen.
