

Selections for the Festive Season

Merry Christmas & Happy New Year from the team at Speciality Trees. We will be closed from 12 noon Thursday 24th December to Monday 28th December 2015. Also closed 1st January 2016. Normal trading hours will recommence 4th January 2016

Liriodendron tulipifera

TULIP TREE

Shapely fresh green leaves make this such a beautiful tree for this time of year. Our stock is looking exceptionally well as well and is available in 50L & 100L containers. For a narrower space the fastigate form, *Liriodendron tulipifera fastigiata* is also available in 40cm containers and 200L bags.

Tristaniopsis laurina

KANOOKA GUM

This tree is a real favourite this time of year. While not usually big enough to provide shade to sit under, it is another tree with that exhibits both interesting bark as well as transient foliage colour this time of year. Smooth light grey bark contrasts beautifully with the profusion of new reddish growth that shoots after the passing of winter. We have good numbers in 40cm and 50 litre containers.

Brachychiton populneus x acerifolius 'Jerilderie Red'

This is an attractive densely canopied tree that grows to approximately 8m tall and 7m wide. It has a bloated trunk and a large lobed leaves. During the summer months the tree is densely packed with stunning powdery-red flowers that are shaped like small bells. Sensationally beautiful colour when in flower. A must see! We have great numbers in 30cm, 50cm and 100 litre bags.

Tristaniopsis laurina 'DOW10'

Luscious® PBR' 

KANOOKA GUM

This is a new Tristaniopsis variety in the market. With large, glossy leaves and deep copper glow in its junior growth, we are sure this will be another very popular selection as a feature specimen or tall hedge. We currently have good looking 40cm and 50 litre stock ready to go now.

Lagerstroemia indica x fauriei 'Natchez'

CREPE MYRTLE (WHITE)

And to finish the this festive selection, a white Crepe Myrtle. This is an attractive densely canopied tree that grows to approximately 8m tall and 7m wide. It has a bloated trunk and a large lobed leaves. During the summer months the tree is densely packed with stunning powdery-red flowers that are shaped like small bells. Always popular and a great flowering specimen, we have good numbers year round in 30cm, 40cm, 50cm and 100 litre bags. Pick your size!
