

Woodlea - A Landmark Green Community

Speciality Trees is proud to be involved in the supply of tree stock into Woodlea. Both parties understand the value of trees to create a healthy community environment.

Angophora costata

SMOOTH-BARKED APPLE MYRTLE TREE, RUSTY GUM TREE

This is a popular Australian native tree loved for its smooth bark, twisted limbs and large expanded trunk base. Its size makes it very useful for canopy cover in wide streetscapes, large avenues or parks.

Brachychiton populneus x acerifolius 'Bella Pink'

BELLA PINK BRACHYCHITON

Brachychiton populneus x acerifolius 'Bella Pink' is a broad form native that grows to approximately 8m tall. Flowers are intensely pink in summer making it a distinctive selection for avenue planting and streetscapes. As an Australian native it has good drought tolerance.

Eucalyptus leucoxylon 'Euky Dwarf'

DWARF YELLOW GUM

This dwarf yellow gum grows to 6m making it a good selection for native streetscapes. It is a shapely native with a dappled open canopy, single trunk and smooth bark that sheds. Its grey-green leaves once mature is offset by masses of pink, red and sometimes cream blossom.

Fraxinus oxycarpa syn. angustifolia 'Raywoodii'

CLARET ASH

This is an attractive, some say fast growing, deciduous tree with an open canopy. It has small narrow leaves turning deep green in summer to claret colour in autumn. This is a beautiful urban tree very suitable for streetscapes.

Corymbia maculata

SPOTTED GUM

This is a beautiful but very tall spotted gum. It has magnificent smooth cream bark characterised by grey spots. The leaves are dark glossy green with small clusters of white fragrant flowers that are borne in autumn and winter. Consider this tree for large open spaces, parks and large avenues.

Eucalyptus sideroxylon rosea

RED-FLOWERING IRONBARK

This Australian native tree is indigenous to eastern Australia. It has very dark brown to black bark that does not shed. Leaves are a beautiful blue to greyish green. It is a very distinguishable native tree growing to 15m tall.

Ulmus parvifolia 'Todd'

TODD CHINESE ELM

This semi deciduous tree has a lovely pendular habit with bright green serrated leaves. Its bark is smooth and flaking showing an array of colours including grey, reddish brown and cream. Elms have traditionally been a very popular street tree due to their form and size.

Eucalyptus polyanthemos

RED BOX

This Australian native tree is oval shaped and has greyish green leaves with a short trunk. The bark can be smooth or box like (fissured). Red Box is used as an ornamental tree for street and park planting.
