

Juniperus chinensis 'Spartan'

Green Spartan Juniper

This conifer is hardy and relatively fast growing. It has very dark green foliage, an upright, conical habit and produces small, fleshy berries. It is a very dense grower which requires little to no pruning, however, if pruned, responds very well, making it an ideal choice for topiary and hedging.

Family	Cupressaceae
Common Name	Green Spartan Juniper
Mature Size (h x w)	9 x 3m
Form	Fastigate
Categories	Evergreen, Formal Screening, Group Planting
Uses	A great feature tree. Can also be found in Japanese style gardens. Great for hedging and topiary as it responds well to pruning. Can be used in a variety of styled gardens.
Position & Soil	Prefers moist well drained soils in full sun to part shade. It is a low maintenance tree that can handle most conditions.
