Acacia cognata 'Burgundy Cascade'

BURGUNDY CASCADE WEEPING WATTLE TREE

A stunning shrub or small tree with cascading foliage. This Australian native has thin smooth green leaves with a burgundy edge that gives it an interesting range of colour throughout the year. The flowers are small, ball shaped, pale yellow and speckled throughout the foliage.

Creates a stunning effect when planted in groups. Great as a small specimen tree in any sized garden adding great colour and texture. Works well in large containers or as an informal hedge.

Prefers a humus rich, moist, well drained soil in a sunny position. Can tolerate most soils and most ph levels.

Foliage	Evergreen
Form	Pendulous
Mature Size	4 x 3m
Family	Fabaceae, subfamily Caesalpinioideae

Small **Evergreen** **Pendulous** **Avenue** **Bird Attracting** **Driveway** **Feature Foliage** **Group Planting**
