

Acer campestre 'Evelyn'

QUEEN ELIZABETH MAPLE

A small to medium tree, this Maple has a consistent upright branching habit. It has attractive small dark green leaves with rounded lobes over spring and summer, changing to yellow in autumn.

For use as a shade tree or feature tree in smaller gardens. Great for avenue planting on medium-sized properties.

This variety grows well in humus-rich, well-drained soils but it is tolerant of a wide variety of conditions. Full sun to light shade.
