

Acer elegantulum

ELEGANT MAPLE

This is a rare Chinese Maple, growing to approx. 6m-10m tall. Showy bronzy-red coloured new growth turns a lush green with age. Makes a lovely shade tree in summer and feature tree in autumn when foliage turns from green to yellows and oranges.

Use as a feature tree. It is considered a fast growing Maple.

While it is similar in form to Japanese Maple, it is more Acer negundo in nature as it can tolerate full sun to part shade conditions in humus-rich soil.

Foliage Deciduous

Form V-Shaped

Mature Size 6-10 x 4m

Family Sapindaceae

Small

Deciduous

V-Shaped

Feature Foliage
