

Acer palmatum 'Dissectum atropurpureum (weeping standard)'

Another beautiful low growing Japanese maple with lace-like leaves that are deeply lobed with serrated edges. The early foliage is a claret red colour turning a deep orange and crimson in Autumn.

Most Japanese Maples make wonderful feature trees due to their shape, leaf shape and colour. They are very suitable for courtyards with protection from full sun and hot winds.

Prefers being planted in a protected area of the landscape away from full sun. Prefers well drained, moist soil. will tolerate most soil types once established
