

Acer palmatum dissectum 'Green Globe' (Standard)

GREEN GLOBE JAPANESE MAPLE STANDARD

This decorative variety of Japanese Maple has fine bright green lace-like leaves that change to yellows and oranges in Autumn. It is a grafted variety that usually grows in a rounded shape on a clear trunk.

Plant in containers or in the garden as a beautiful small feature tree for year-round interest. Prune each winter to maintain its shape.

This variety likes a position of full sunlight in well-drained soil. Japanese Maples have moderate water requirements. Avoid a location that is unprotected from north or west afternoon sun, or hot winds in summer.
