

Acer palmatum 'Dissectum Ornatum Bronze (weeping standard)'

A beautiful Japanese Maple produces stunning deep-red new growth becoming a dark coppery-burgundy colour eventually turning bronze-green as it matures. It has a beautiful domed weeping habit and leaves are deeply lobed with serrated edges. This gives the leaves a feathery look.

Most Japanese Maples make wonderful feature trees due to their shape, leaf shape and colour. They are very suitable for courtyards with protection from full sun and hot winds.

Prefers a well protected position away from hot winds and full sun. This can scorch the leaves. Can tolerate most soil types once established but prefers a moist well drained soil.

Foliage Deciduous

Form Weeping

Mature Size 1.4-1.8m grafted

Family Aceraceae

Deciduous

Weeping

Small

Feature Foliage

Specimen
