Acer rubrum 'Autumn Red'

CANADIAN MAPLE TREE

This is a very common deciduous tree in North America. It is a beautiful rounded tree with ascending branches when young, maturing to a more rounded canopy. Great for autumn colour. Leaves stay green longer than other varieties before turning bright orange to deep lipstick red. All parts of the tree, for example flowers, twigs and seeds, are red in varying shades. This tree is also known as 'October Glory' or 'April Splendour'.

A great selection as a feature or specimen tree. The autumn colours are a stunning feature for avenue planting in parks and medium to large gardens.

Full sun to part shade. Can cope with a wide range of soil conditions but prefers a humus rich soil. Dry and wet areas can be tolerated.

Foliage	Deciduous
Form	V-Shaped
Mature Size	13 x 9m
Family	Sapindaceae

Large **Deciduous** **V-Shaped** **Avenue** **Feature Foliage** **Group Planting** **Shade Tree** **Specimen**
