

Banksia integrifolia fastigiata 'Sentinel'TM

This is a small shrub with medium frost tolerance for use as a dense narrow flowering screen. Preferring full sun to light shade it produces upright lemon brush-like flowers from late summer to winter. Responds well to pruning.

Great for small to medium gardens, large containers and narrow spaces. Due to its height and form, it is a good selection for use along paths and driveways.

Prefers a well drained, humus rich soil in full sun or light shade. A good option for sandy soils and coastal positions.
