

Betula pendula alba 'Cluster (multi-planted)'

Betula pendula 'Alba' is a weeping deciduous tree with a beautiful white trunk, pendulous branches and silvery green foliage. Its leaves change from green to gold in autumn. We offer this species multiplanted in the one container for a bushier, denser planting option.

Our cluster planting is ideal for a smaller gardens and for gardens with a bushland affect. It creates a dense effect making it a great ornamental piece in all gardens.

Prefers sandy or moist acid to alkaline soils, with good drainage. Will tolerate short periods of dry or wet.

Foliage Deciduous

Form Round

Mature Size 12-15 x 6m
