| <b>Description</b>         | <p>A native to south-eastern Australia, this is an attractive wattle with pendulous branches and beautiful weeping habit. The foliage on 'Green Majik' is an attractive grassy green as opposed to its lime green 'Lime Magik' counterpart. The flowers are soft yellow balls, speckled throughout the tree.</p> | <p>This Australian native large shrub/small tree that has pendulous habit with lime green thin soft foliage. This Acacia produces an abundance of soft yellow flowers during late winter and spring that have the appearance of soft yellow snowflakes. Its colour and fine weeping foliage makes it a stunning specimen tree or contrast planting.</p> |
