

Tree	 <p>Corymbia ficifolia 'Summer Beauty'</p> <p>GRAFTED FLOWERING GUM</p>
Description	<p>This is a stunning grafted flowering gum which produces masses of flowers in summer. Large glossy foliage is dark green in colour, highlighted by lighter green undersides. New growth emerges with a reddish tinge. Its flower colour is a beautiful, soft pink with a hint of apricot, produced over the summer months, followed by large gumnuts. Rich in nectar, this is a great bird attracting, small grafted tree.</p>
Foliage	<p>🌿 Evergreen</p>
Form	<p>🍷 Oval</p>
Mature Size	<p>6 x 3m</p>
Uses	<p>A very good performer for big and small gardens adding lovely summer colour. Great for streetscapes and parks for native habitat.</p>
Position & Soil	<p>This variety should do well in most areas of Australia as they will tolerate light frosts and drought.</p>
Features	<p> 📏 Small 🌿 Evergreen 🍷 Oval 🐦 Bird Attracting 🌸 Feature Flower 🇦🇺 Native 🌳 Specimen </p>
