Tree	Elaeocarpus reticulatus 'Dark Pink Elly' (D) DARK PINK ELLY BLUEBERRY ASH
Description	Elaeocarpus reticulatus also known as Blueberry Ash, is a strikingly beautiful native tree producing masses of white and sometimes pinkish flowers. This new variety is a narrow-growing form suitable for screening or as a feature tree in a tight space.
Foliage	& Evergreen
Form	
Mature Size	4 x 1.5m
Uses	As this species grows half the size of normal Blueberry Ash, it appears to be a clever inclusion for designs that require full foliage cover with mass flowering in a compact space. Great for screens and hedges.
Position & Soil	Works best in a humus rich soil, in a sunny position.
Features	 Small Evergreen Fastigiate Bird Attracting Coastal Feature Flower Formal Screening Hedging Informal Screening Native Signature Trees Specimen
Pot sizes in production
