

Tree	 <p>Eucalyptus leucoxydon rosea 'Scarlet'</p>
Description	<p>A grafted selection of 'Euky Dwarf', 'Scarlet' is an exceptional flowering form, drought tolerant and a uniform performer. 'Scarlet' is grafted onto Eucalyptus leucoxydon rosea providing uniform height to 8 metres, exceptional flowering performance and vibrant flower colour. Its attractive foliage, drought tolerance and consistent performance will make it a winner in streets and landscapes where dappled shade is required. A very attractive small to medium tree with flowering that is simply eye-catching.</p>
Foliage	<p> Evergreen</p>
Form	<p> Oval</p>
Mature Size	<p>7 x 4m</p>
Uses	<p>Great for landscapes, streetscapes, carparks, parks and gardens - anywhere a high performing native is required.</p>
Position & Soil	<p>Being a native, this selection is tolerant of most soil conditions, but preference is for full sun and a well drained soil.</p>
Features	<p>  Small  Evergreen  Oval  Bird Attracting  Native  Shade Tree </p>
