

Tree	 <p>Ficus carica 'White Adriatic' WHITE ADRIATIC EDIBLE FIG</p>
Description	<p>Unsurpassed for flavour when ripened on the tree, this medium to large sized fig has an excellent sweet flavour. The tree generally crops once per year with fruit which is very easy to peel when it ripens in late Summer-early Autumn. Green to yellow skinned, the flesh is a rich, strawberry red and is a great variety for making jams, drying or eating fresh. This is a self-fertile variety, but will benefit from other varieties. 'White Adriatic' works well in both cold-temperate and sub-tropic areas as it requires low chill hours.</p>
Foliage	<p> Deciduous</p>
Form	<p> Round</p>
Mature Size	<p>5 x 4m</p>
Uses	<p>Makes an attractive specimen and productive tree for fruit. A nice selection for Mediterranean inspired gardens. Commonly used commercially for drying, jam and canning.</p>
Position & Soil	<p>Prefers a well-drained or moist soil in a sunny location.</p>
