

Tree	 <p>Gleditsia triacanthos var. inermis 'Shademaster'</p> <p>GREEN HONEY LOCUST</p>
Description	<p>This is a beautiful, large, fast growing, deciduous tree with a broad, open, spreading canopy and weeping / pendulous branches. The dark to mid-green bipinnate leaves turn a rich yellow in Autumn, hanging gracefully from the tree well into the season. It is a popular selection for streetscapes and parks and a great choice for a feature shade tree in a larger garden. This is a thornless variety of Gleditsia.</p>
Foliage	 Deciduous or type unknown
Form	 Pendulous or type unknown
Mature Size	13 x 10m
Uses	A great, stunning feature tree. Can also be used in parks and gardens as it is a great filtered shade tree.
Position & Soil	<p>Best suited in deep, fertile, well-drained soil and in a full sun position. Can tolerate a wide range of growing conditions. Tolerates air pollution and urban conditions. Ensure any shoots that develop under the graft point are removed cleanly and promptly.</p>
Features	 Large or type unknown  Deciduous or type unknown  Pendulous or type unknown  Avenue or type unknown  Feature Foliage or type unknown  Shade Tree or type unknown  Specimen or type unknown
