

<b>Tree</b>	 <p><b>Hakea salicifolia</b> WILLOW-LEAFED HAKEA</p>
<b>Description</b>	<p>A beautiful small tree or bushy shrub that can be used as a stand-alone tree, mixed with other natives or hedged to great effect due to its fine narrow leaf and bushy habit. While we have classified it as having a standard tree shape, we grow it bushy and full to the ground. Flowers are white and occur in the leaf axils. They are generally seen in late winter to spring. These are followed by woody seed pods.</p>
<b>Foliage</b>	<input checked="" type="checkbox"/> Evergreen or type unknown
<b>Form</b>	<input checked="" type="checkbox"/> Round or type unknown
<b>Mature Size</b>	<p>5 x 4m</p>
<b>Uses</b>	<p>A great variety for native landscapes, hedges and screens. Has lovely coloured foliage which makes a great choice for native gardens.</p>
<b>Position &amp; Soil</b>	<p>Hakea salicifolia is a very hardy plant in most soils preferring full sun and/or part shade. It's native to NSW and Queensland but is easily grown all around Australia.</p>
