

Tree	 <p>Liquidambar formosana 'Evergreen' FORMOSA SWEET GUM</p>
Description	<p>Liquidambar formosana 'Evergreen' is a beautiful deciduous tree that turns a bright red in autumn, holding this colour long into winter - in some areas and climates it will remain in colour until the new Purple Spring foliage pushes through. Makes a beautiful feature tree for autumnal colour and shade in summer. PLEASE NOTE: as suggested by its name, this tree, however is only evergreen in warmer, northern climates. In cooler temperate climates like Victoria, this tree is deciduous.</p>
