

<b>Tree</b>	 <p><b>Lophostemon suaveolens</b> SWAMP BOX, SWAMP TURPENTINE</p>
<b>Description</b>	This hardy Australian native tree has a fast-growing and weeping habit, dull green foliage and small clusters of creamy-white flowers that appear in spring and summer.
<b>Foliage</b>	 Evergreen
<b>Form</b>	 Oval
<b>Mature Size</b>	10-18 x 7-10m
<b>Uses</b>	This variable height tree is mostly used as a shade tree on farms, paddocks and large properties. It is known as a good source of honey for bees and butterfly attracting. Can provide useful timber. Minor koala food source, but useful for habitat creation for native wildlife.
<b>Position &amp; Soil</b>	It prefers full sun in moist/wet soil and tropic to sub-tropic conditions but also grows well in areas offering a temperate to warm climate. Will tolerate wet conditions and flooding and salt air in coastal conditions.
<b>Features</b>	 Medium  Evergreen  Oval  Bird Attracting  Coastal  Group Planting  Informal Screening  Native  Shade Tree
