Tree	 **Magnolia grandiflora 'Teddy Bear' ™** TEDDY BEAR MAGNOLIA TREE (EVERGREEN)
Description	This is an evergreen, upright growing magnolia reaching 4m. Being naturally dense in habit, with a tight, compact form, it is ideal used as an informal hedge. Leaves are large and rounded - glossy and dark green on top with felted, bronze undersides. Sporadic large white flowers appear during the warmer months from late spring through to autumn.
Foliage	Evergreen
Form	Fastigiate
Mature Size	4 x 3m
Uses	Makes a great feature tree in any size garden. Also good in streetscapes and parks. Due to its dense form, 'Teddy Bear' can make a fragrant hedge or screen.
Position & Soil	It grows and flowers best in full sun positions. In part shade, flowering is considered steady. Prune to shape in spring. Benefits from the application of a balanced long-term fertiliser. Magnolias require organic, well-drained soil with summer irrigation for success. This tree is a low water user once established.

Features	Small Evergreen Fastigiate Avenue Coastal Driveway Feature Flower Feature Foliage Formal Screening Group Planting Hedging Informal Screening Specimen
