| Tree                    | Photinia x fraseri 'NP01' Thin Red TM () THIN RED PHOTINIA  |
|-------------------------|---|
| Description             | Thin Red™ Photinia is a narrow hedging plant with beautiful red new-growth foliage. Displays of small white flowers can be seen in mid to late spring.  |
| Foliage                 | & Evergreen   |
| Form                    |   |
| Mature Size             | 3-4 x 0.6m  |
| Uses                    | A good selection for small hedging or screening particularly in garden beds with limited planting space.  |
| Position & Soil         | Full sun to part shade. Works with most soil types. Water as required for 8-13 weeks until established. Plant with chunky mulch and fertilise yearly with slow-release fertiliser. Prune yearly, or twice per year for a more tidy hedge. |
