

Tree	 <p>Prunus persica nucipersica 'White Satin'</p> <p>WHITE SATIN NECTARINE (LOW-CHILL)</p>
Description	<p>This is a beautiful blushed bright-red and yellow skin nectarine with white flesh. It produces aromatic, sweet and juicy fruit. Flowers in late winter and fruit in December. 'White Satin' is self-pollinating and works well in both warm-temperate and subtropical climates, as it requires low chill hours.</p>
Foliage	<p> Deciduous</p>
Form	<p> Round</p>
Mature Size	<p>4m x 4m</p>
Uses	<p>This is a self-pollinating nectarine and can be pruned to 2m which makes it ideal for small gardens. Suitable for planting in 35+ litre containers.</p>
Position & Soil	<p>Plant in a full sun position with a neutral good draining soil. Prune after fruiting in summer to encourage fruiting wood for the following season. It is a low-chill variety and is frost-tolerant. The tree is deciduous and loses leaves in winter.</p>
