A lovely ornamental pear, only growing to 8-10m in ideal conditions, making it a great inclusion for residential plantings with restricted space. As a deciduous tree it produces deep, green leaves, masses of white flowers in spring and vivid red foliage in autumn before falling. It has an upright, more ascending form to approximately 4m wide when fully mature. Foliage © Deciduous Form Mature Size 8m x 4m Uses A great selection for smaller landscapes, streetscapes and parks where nice autumn colour and form is required. Position & Soil This is a hardy selection that is relatively frost hardy and suitable for most soil types.
