

Corymbia ficifolia 'Burgundy'

This native small tree has beautiful green leaves with red new growth. This tree has a very dense canopy that is covered in stunning dark red flowers in summer. A great native addition to the garden that brings a beautiful colour.

Due to its shape, size and flowering capabilities, this tree makes a great feature tree in any garden. Compact and colourful it can be used as the backdrop to other natives with contrast foliage.

Prefers a humus rich soil in a sunny position but being a native is tolerant of many soils conditions.
