

Corymbia maculata variegatum 'Ribbons of Hope' TM

This is a new variegated variety of Corymbia maculata with long and narrow variegated green and cream foliage. Flowers are white and new growth appears as a bluish pink colour.

The tricolour foliage on this tree, makes it a stand out gum for landscaping. It is a hardy tree which grows in most soils, in full sun to part shade. It has clusters of white gum blossoms in spring and summer.

Like most gums, this tree is tolerant of most soil conditions. It is frost and drought tolerant.
