

## Eucalyptus bridgesiana

This species grows to about 20 m in height and has distinctive bluish, ovate seedling and juvenile foliage.

This tree makes an excellent windbreak, shelterbelt or shade for stock.

Eucalyptus bridgesiana has potential to help remediate gully erosion of clay soils, particularly where cold air drainage is a problem.

**Foliage** Evergreen

**Form** Round

**Mature Size** 20 x 10m

**Family** Myrtaceae

**Evergreen**

**Round**

**Giant**

**Native**
