

## Eucalyptus cinerea 'grafted'

### ARGYLE APPLE, CANBERRA BLUE GUM

This is a small to medium sized tree with reddish-brown to grey-brown rough bark on the trunk and larger branches. Makes a beautiful landscape specimen, planted singly or in groups. It has distinctive, blue-green aromatic foliage. The creamy yellow flowers are insignificant. It is known by its round grey-blue leaves that often pop up in floral arrangements.

This variety makes a nice medium-sized feature tree in small to large gardens due to its distinctive blue-green foliage. Stems are popular in cut flower arrangements.

Prefers a sunny position in a humus-rich soil.

**Foliage** Evergreen

**Form** Round
