Eucalyptus polyanthemos

RED BOX TREE

This Australian native tree grows naturally down the central tablelands of New South Wales to Victoria, and across as far as Ararat. A tough tree, it is capable of tolerating difficult, dry stony soils. Juvenile foliage is oval in shape and grey-green in colour whilst the mature, adult leaves are more ovate. The short trunk can be smooth or box-like (fissured). Flowering occurs from September to January during which small white flowers appear.

A great street/ avenue planting tree. Can also be used in Parks and Gardens for shade and native habitat

Is tolerant of most soils even the most difficult of sites but does need good drainage. Can tolerate very dry conditions.

Foliage	Evergreen
Form	Oval
Mature Size	10-15 x 5m
Family	Myrtaceae

Large **Evergreen** **Oval** **Bird Attracting** **Coastal** **Feature Flower** **Feature Foliage** **Native**

Shade Tree **Signature Trees** **Specimen**
