

# Juniperus chinensis 'Spartan'

## GREEN SPARTAN JUNIPER

This conifer is hardy and relatively fast growing. It has very dark green foliage, an upright, conical habit and produces small, fleshy berries. It is a very dense grower which requires little to no pruning, however, if pruned, responds very well, making it an ideal choice for topiary and hedging.

A great feature tree. Can also be found in Japanese style gardens. Great for hedging and topiary as it responds well to pruning. Can be used in a variety of styled gardens.

Prefers moist well drained soils in full sun to part shade. It is a low maintenance tree that can handle most conditions.

**Foliage** Evergreen

**Form** Fastigiate

**Mature Size** 9 x 3m

**Family** Cupressaceae

**Evergreen**
