

Laburnum x watereri 'Vossii'

GOLDEN CHAIN TREE

This is a small tree known for outstanding pendulous racemes of yellow flowers produced in abundance in late spring giving it a pendulous or weeping appearance. Can be trained effectively over a frame or pergola for a spectacular effect. As shown foliage is golden yellow in autumn, hence its common name.

This is a great feature tree for small gardens.

Prefers a sunny position in humus rich soil. A good tree for urban situations.
