

Lagerstroemia indica x fauriei

CREPE MYRTLE

Crepe Myrtle is an attractive flowering tree. They are a deciduous, vase-shaped tree growing between 3-6m tall. It is often severely pruned and grown as a shrub. Trusses of white, pink, mauve or purple blooms appear in late summer. Seed grown.

A great flowering specimen used mostly as a feature tree in residential gardens.

This variety prefers a humus rich, well drained soil in full sun.
