Leptospermum petersonii 'Lemon Frost'

Foliage	Evergreen
Form	Shrub
Mature Size	1.5m x 2m
Family	Myrtaceae

TEA TREE

This is an attractive fine-leafed small-growing Tea Tree new to our range with a delightful fresh lemon scent. Produces an abundance of starry white flowers in summertime. Great for attracting birdlife into your garden and can be used as a fragrant hedge!

Its dense and near-upright foliage is suitable for clipping into hedges and windbreaks. A good selecton for seaside coastal gardens and bird-attracting gardens.

Prefers a full sun position in free-draining soil, rich in organic matter. It will tolerate wind, dry periods and acidic soil. Tolerates light frost. Prune and fertilise after flowering to promote compact growth.
