

Magnolia doltsopa x laevifolia 'Inspiration' (syn. Michelia)

INSPIRATION MAGNOLIA (DECIDUOUS)

This is a larger growing hybrid with dark green leaves, dense habit and a beautifully sweet scent from white cupped flowers that adorn the tree in spring. Adds height to the garden growing to 4m tall.

This hybrid makes for a beautiful feature tree. Magnolia is also a great option for a scented deciduous hedge.

Grows well in a well-drained soil in a sunny position. Also suitable for colder climate gardens, should cope with frosts and light snow.
