Magnolia grandiflora 'Coolwyn Gloss' ™

Foliage	Evergreen
Form	Oval
Mature Size	6-8m x 6m
Family	Magnoliaceae

SOUTHERN MAGNOLIA TREE (EVERGREEN)

This is a lovely tree to 8m tall which makes it ideal as a feature in a residential setting. It has beautiful glossy dark green leaves with velvety brown undersides and white fragrant flowers up to 30cm in diameter. We see this as an alternative to 'Exmouth' with a similar upright branching structure but with glossier green leaves.

This tree would cut a stately figure as a feature tree in a commercial or residential setting.

It grows and flowers best in full sun positions. In part shade, flowering is considered steady. Tolerates polluted city atmospheres. Prune to shape in spring. Benefits from a balanced, long-term fertiliser. Magnolias require organic, well-drained soil with summer irrigation for success.
