

Prunus armeniaca 'Trevatt'

APRICOT

The Trevatt apricot is a popular apricot that produces a large-rounded, sweet, pale-skinned fruit in significant quantities. They respond well to a thinning when the yield gets too large. Harvest is mid season. It is a self-pollinating variety.

A great selection for eating fresh particularly is ripened on the tree.

Prefers a sunny position with well drained, humus rich soil. Fertilise and prune tree each year to encourage new growth.
