

Prunus salicina 'Donsworth'

BLOOD PLUM

This is an early season, large clingstone blood plum, with dark pink to red skin. Flesh is light red and juicy. It is a vigorous growing variety and prolific bearer, so staking is recommended.

This variety can be eaten fresh or used in preserves and jams.

Plant in a sunny position with well-drained and well-worked soil. Take care to plant the bud union above the soil level. Water in well and keep soil moist until tree is established. Fertilise when planting and again after new growth appears. Prune when planting to encourage new growth and future fruiting

Foliage Deciduous

Form Round

Mature Size 2 x 1.5m

Family Rosaceae
