

Pyrus communis 'Williams'

WILLIAMS FRUITING PEAR

This popular and well-known pear produces medium to large fruit that are very juicy and sweet in flavour. They are a pale green colour at picking but ripen to a clear attractive yellow, sometimes with a slight blush. Early season harvest.

This variety is great for eating fresh, juicing, stewing, preserving and drying.

Prefers a sunny position with well drained soil. Water in well and keep soil moist until tree is established. Fertilise and prune yearly to encourage new growth and fruit the following year.
