

Quercus robur 'fastigiata'

This tree is similar to the English Oak but with a column like habit. It has dense upright branching with dark green foliage. The leaves turn from green to yellow then yellow to brown before dropping. Produces brown acorns.

A great tree for Medium gardens. Good for street planting and parks. Could also be used as screening tree due to its dense foliage.

Tolerates a wide range of soils but prefers a well drained soil in a full sun position. Can tolerate air pollution and short dry periods.

Foliage Deciduous

Form Fastigiate

Mature Size 13 x 4m

Family Fagaceae

Deciduous

Fastigiate
