Syzygium australe 'Big Red'

BIG RED LILLY PILLY TREE

'Big Red' is a Lilly Pilly unlike others as it has large, glossy green leaves. New growth is a spectacular deep crimson. Growing to 4m it is ideal for hedging.

This species makes an excellent large hedge and is ideal for formal gardens and topiary specimens.

Hardy and dry tolerant, 'Big Red' responds exceptionally well to shaping. The regular pruning of flower heads will prevent berry production.

Foliage	Evergreen
Form	Round
Mature Size	4 x 3m
Family	Myrtaceae, tribe Syzygieae

Small **Evergreen** **Round** **Bird Attracting** **Formal Screening** **Group Planting** **Hedging** **Informal Screening**

Native
