

Syzygium australe 'Cherry Bomb'

CHERRY BOMB LILLY PILLY

This is a dense variety of Lilly Pilly with intense cherry red flushes of new growth that will fade to a rich deep green as it matures. Small, white, fluffy flowers appear in summer and autumn that grow into clusters of deep pink, edible berries.

Ideal for formal gardens, along fence lines and narrow driveways, 'Cherry Bomb' can almost be pruned to any height and width. Perfect as a potted statement plant or in courtyards and larger sculptured landscapes as well. The berries can be used for jams, and infusing gin etc, but are recommended to be eaten raw.

Foliage Evergreen

Form Shrub

Mature Size 6 x 2m

Family Myrtaceae

Prefers a full sun to part shade position in the garden.
